ALERT - NOTICE

Reports has appeared in media that the drug Avastin (Bevacizumab Injection) 100mg/4ml, 400 mg/16ml vials manufactured and marketed by M/s Roche Product (India) Pvt. Ltd., have been used in the treatment of eye ailments through intra-vitreal route and this has lead to loss of vision in certain patients at M/s C. H. Nagri Eye Hospital, Ahmadabad, Gujarat. The drug is not approved in the country for intra-vitreal use for ophthalmology purposes.

In view to safeguard the public health and as a precautionary measure, all concerned are hereby directed that the drug is not used in ophthalmology and the State / UT Regulatory Authorities may alert their inspectorate staff to monitor the movement of the said drug and its use in ophthalmology.
